**THE APPLICATION:** Conveying a Variety of Vehicle Exhausts

**THE PRODUCT:** Dual Belt Conveyor

**THE INDUSTRY:** Automotive

**THE NEED:** An automotive manufacturer needed to replace an existing manual operation. The conveyor system needed to accommodate the exhaust’s awkward shape and multiple sizes.

**THE SOLUTION:** Omni Metalcraft Corp. provided a Dual Lane Belt Conveyor that allowed for operator load and unload access. An air motor was supplied per the customer’s specifications.

- Air motor
- Custom sideguides
- V-guide belt for tracking
- Split lane belt conveyor
- Slider bed belt conveyor
