

JUG PACKAGING LINE

NO: 514

THE APPLICATION: Transporting and Accumulating Jugs

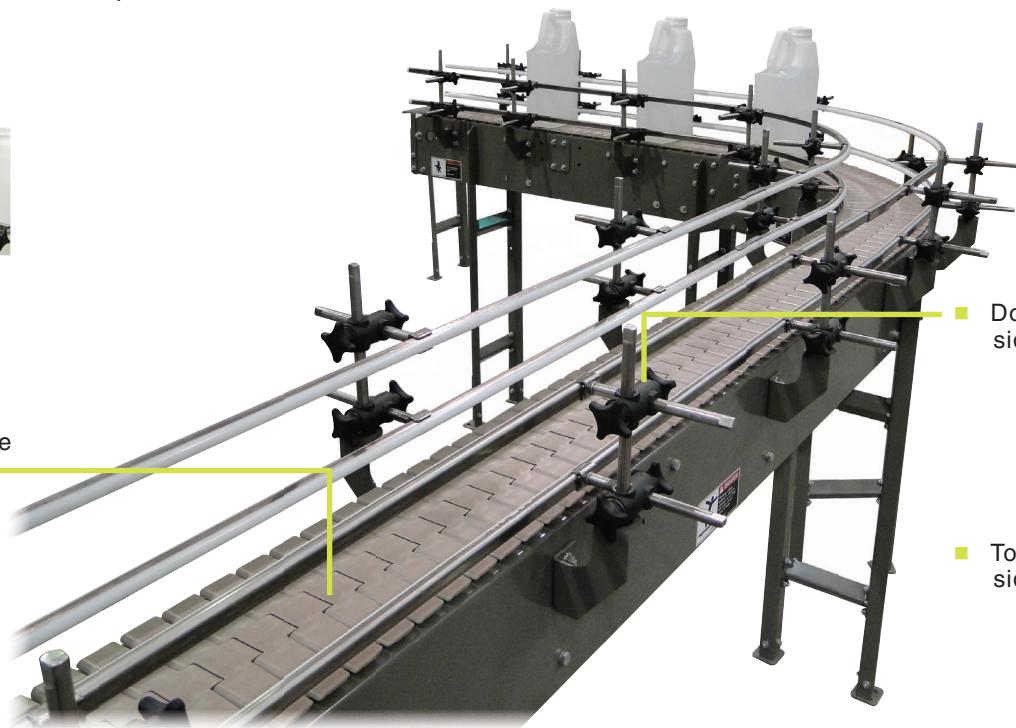

THE PRODUCT: Modular Table Top Conveyor

THE INDUSTRY: Chemical Manufacturing

THE NEED: An agricultural chemical manufacturer needed to convey jugs from a fill station to a labeling application. The jugs needed to accumulate in order for labels to be applied.

THE SOLUTION: Omni Metalcraft Corp. provided a Modular Table Top Conveyor with tool-free, adjustable double high side guides. The adjustable guides were utilized to guide product as it is being transported. An overhead pneumatic stop was also provided to accumulate the jugs for label application.

- Overhead pneumatic stop

- 882 LF tab side flexing chain

- Double high side guides

- Tool-free adjustable side guides
